As you read **WORDS**, your brain is forming  
**SEEN**ergies, making neuronal connections

checking the molecular database for matches. You will remember what you have SEEN to remember evolutionarily. Those evolutionary SEENergies which link to your S.K.E.W., i.e. S\_kills, K\_nowledge, E\_xperience and W\_ebbing, will stimulate your group-atomic memories and firming personal character and interests.

When we get up and SEE where we are and what time it is .... that is made possible by brainy and cosmic SEENergy.  
 When we SEE the moon and stars mostly by night .... that is also made possible by brainy and cosmic SEENergy.  
 SEENergy depicts a cosmic fact of evolving impact and importance. It enables our brains to order and structure TIME-SPACES practically or theoretically. By nature, SEENergy does not require complicated notation or vocabulary. It can be understood in form of momentarily quantitative images abstracted by our brains.
